Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

The aircraft was destroyed and a paver line was damaged on the ground.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

I should have diverted into KHEF for fuel.

Mark Vasil (C-GODA)– Statement for McLaren's Aviation

On September 5th 2018 I was on a flight from CYOO to KRIC. I filled the fuel tanks prior to departure. I had a misunderstanding of how long I could fly with full fuel. The Shaden fuel computer was indicating I would land with 30 minutes reserve fuel. I thought the 58 usable US gallons of fuel in the wing would last a minimum of 4 + hours. My flight lasted 3.7 hours. I was cruising at 22" mp and 2200 RPMs at 6500 feet. I suffered a complete fuel starvation on the 4 mile final approach to runway 20 at KRIC. I made an emergency landing in a school baseball field that was unoccupied. I cut a power line on approach to the ball field. Contact with the power line yawed me to the right and I went down sideways. The impact destroyed the aircraft. No one was injured in this event.
