Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Apparently right main (fixed) gear was damaged from animal strike the night before - see below

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Student (Instructor receiving FII training) and I pre-flighted aircraft. No abnormalities/issues observed or discovered. Taxied out and departed KFFZ, flew two approaches and touch & go landings at KCHD and KCGZ. Performed full stop terminate (last landing) at KFFZ. Upon taxiing into ramp, heard unknown squeeking noise from right main landing gear. Decided to squawk aircraft as this was highly unusual. Met CAE Safety Officer on-ramp at that time and discovered aircraft had hit a coyote at KIWA the night before.
