Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Aircraft: Structural damage to left wing and propeller.

Fuel Truck: Broken windshield and damage to rear taillight assembly.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

On 1 October 2018 at about 10:15 am local time at Monmouth Executive Airport (KBLM) while taxiing to Runway 21 in preparation for departure to Freeway Airport (W00), the left wing of the Cessna 152 owned by me struck and broke the windshield of a refueling truck parked at the edge of the asphalt-paved ramp area; this resulted in significant damage to the aircraft. In addition to the wing damage, the propeller was damaged when it struck the rear bumper of the truck also causing damage to the truck's taillight assembly. I was pilot in command and alone in the plane at the time. The truck was unoccupied, and no one was injured including myself.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

Suggest that stanchions or other safety markers be placed along the side of vehicles parked on the airport ramp area.
