Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Aircraft tailrotor irreparably damaged.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Pre-flight briefing occurred at 12.15am. Video Brief. Passenger brief occurred at the helipads at 12.45am. Passengers attempted to take their cell phones onto the flight without a case. I provided a case and placed the cell phone in the case and attached the case to her wrist. We departed PHLI at 1300. On entry to Hanapepe Valley, at approximately 100kts, the passenger on the right side of the aircraft extended her cell phone into the airflow. The cell phone and the case, minus the strap, departed the aircraft and impacted the tail rotor.

I assessed the flight condition of the helicopter and landed at the nearest appropriate landing site, a hunting track at the edge of Hanapepe Valley. On assessing the damage it was clear the tail rotor was unairworthy.

I contacted my base, organized a passenger pickup and sent details to the mechanics.

The helicopter received a tail rotor swap in the field and was returned to the base, PHLI, the following day.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

An uprated case structure for the passengers may have prevented this occurrence. Future options are being considered and advice taken from other 'doors off' operators.
