Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Nose Wheel ripped off and Prop contacted ground. 1 taxiway light destroyed on airport property.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Student and Instructor were preparing for a 3rd supervised solo. student did 2 landings with instructor everyone was happy with the landings so the instructor got out. Student did one full stop landing and either did not complete his after landing checklist or forgot the flaps. he proceeded to taxiway to runway 22 at November a common practice. he received clearance for closed traffic. student stated after adding full power plane started to veer left and he added rudder but it wasn't enough. as he exited the runway by taxiway bravo about 1000 feet down the runway from take off he cut power and mixture. he went through taxiway Bravo the grass and taxiway November. Before hitting taxiway Hotel the Grass between taxiways has a berm or 1 foot incline. when he hit that incline it sheared the nose gear off and the prop struck the ground and the plane skidded to a stop on the left side of taxiway hotel. the student exited the plane and when airport operations arrived they helped shut off the fuel valve.
