Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Flight was VFR from MPR to F17 on Dec 20, 2019
Weather report, just prior to landing, from Center
AWOS was wind at 310 deg with 14 mph ^{steady,} gust 23 mph.
Landing was Runway 35. Approached with a
3 mile final, 10 deg of flaps and cross wind
correction was stable. Upon starting flare, (10-15 ft)
above runway numbers, a gust of wind lifted the up
wing wing 90 degrees. Immediate corrective action was
to level wings and push in full power. Once wings were
level I was over the drainage ditch between runway &
taxiway. Ditch is approx. 6' deep. I reached the conclusion the
aircraft would not gain enough airspeed to make the
taxiway & pulled the plane into a full stall to prevent
slipping the plane. The front wheel contacted the side
of the ditch and the plane came to rest west of
the taxiway approx. 20 ft.
