NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

MR.Roh flight was supposed to be done on 2/15/19 at 14:00 the flight was move to 16 due airplane aviability. The first portion of thr flight was done with the ip present. The PUI demonstrate the ablity to conduct the flight solo. He did every maneuver in the standars including the landing. Ip decide to sent Pui solo. During the Solo portion everything was done normaly until the oment pui came back the atc assigne 27c the pui dint feel safe and decide to execute a go around. Pui request 27I becuae he feel safer in that runway. Pui turn base to early making this a high approach overshooting the final making it an unstable approach. He thought of going around but he dint because he was afraid of overflying his time limitation and being closse to the time limit of the lesson block. The approach was high he dint add enough flare and landing with the nose tired hiting the prop. Pui decide to go around and try one more time landing normally. In the moment of the flight IP was finishing another flight and wasnt able to verify at the moment the prop.
