NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)					
Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible. As per company policy, aircraft was thoroughly pre-flighted. With the instructor on the controls, the aircraft air taxied down the taxiway towards the departure end of RWY 16. After decelerating from the air taxi, a turn was engaged in the direction of the runway, from the taxiway. The runway was verified clear with no other traffic in the traffic pattern. During the process of turning the aircraft and proceeding over the grass area between the taxiway and runway, towards the runway, a part of the aircraft, most likely the landing gear, touched the uneven ground. This caused a rapid rolling motion, which quickly caused the aircraft to turn over its longitudinal axis. At this point the situation was unrecoverable.
