NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On 3/9/2019 N52047 was being flown from OGM direct to EGV (56 nm). Before departing OGM we approached the self-service fuel station. It failed to dispense any fuel.

The log kept with the plane indicated that it had been flown 3.8 hours since it's last fill-up (60 gal). Using a fuel burn rate of 12 gal/hr, 14.4 gallons should be remaining. The tanks were checked visually. It appeared that there was sufficient fuel to make the 0.4 hour trip.

En route to EGV the engine stopped short of LNL on the MI/WI state line.. We were at 3,500 ASL (1,800 AGL). We were in line with runway 14 at LNL, approximately 4 miles out. The plane was put at best glide speed headed for LNL. As we approached it became apparent that we would more likely land in the trees and not make the runway. A 180 turn was executed enabling a landing on Marsh Lake. Without knowing the condition of the landing area the decision was made to land gear-up.
