Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

Damage to (L) wing tip, the (L) wing pulled from the fuselage, and the (L) flap and aileron impinged together

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

Departed KSGT at ~9:30 AM on 4/3/19. Had checked AOPA weather and listened to ATIS at KSGT. Had an uneventful flight and landing at KHAL for Sun N Fun. I was slowly taxiing in the grass to the general aviation camping area on the NW side of runway a/27. I was following the air marshals signals and was attempting to go between a recently parked plane and the perimeter fence. (see drawing next page). The air marshal was to the right of the plane and the left wing tip hit a fence post cracking the tip tank. There was no damage to the fence post.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

I should have better situational awareness
In hindsight I wish I had shut the engine
down and we should have pushed it to the camp
site. An alternative was that I had 2 passengers
and I could have assigned each one to watch a
separate wing tip.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)
