NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On April 16th, 2019 I took off from KAPA at approximately 10:00 am MDT for a local pleasure flight. I flew locally for about an hour and then I returned to KAPA and was cleared to land on runway 28 at KAPA at approximately 11:15 am MDT. My approach was a straight in. Winds were reported light and variable at the time. I came in and touched down (3 point) and then suddenly started losing directional control of the aircraft to the left on roll out and attempted to correct with right rudder and brake and ground looped to the right.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

In hindsight, I should have used less or no brake in my attempt to straighten out my landing roll.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)

Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No
