Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

No damage to property. Nose wheel and propeller destroyed on airplane. Was later found out that firewall was also damaged. I do not know yet if airplane is officially considered a total loss or not.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Departed RKD around 1630 on a flight to BGR, When landing the airplane at BGR, the first attempt to touch-down resulted in a hard landing which resulted in a bounce, it was decided to attempt to land again. Unfortunately on the second attempt to touch down, the plane hit hard on the nose wheel, collapsing and causing the nose wheel to fall off. The prop was also bent from the impact. The airplane was then evacuated.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

I should have done a "go-around" instead of trying to land the airplane again.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No

I typed "Unknown" for many of the questions regarding the details of the airplane and the weather. I was renting the airplane at the time and did not have the information available to me. I know that the airplane was legal to fly and maintenance had been kept up. As for weather, again I do not remember the exact specifics of the weather at the time. I know that it was VFR conditions and legal for me to fly.

I HEREBY CERTIFY THAT THE ABOVE INFORMATION IS COMPLETE AND ACCURATE TO THE BEST OF MY KNOWLEDGE
