Subject: N96671 operating weight

The empty weight of the helicopter was 1912 lb (Restricted Category)
Max Gross Weight is 2950 lb
Pilot- 240 lb
Approximately 20 gal of product @ 8 lb/gal is 160 LB
Approximately 45 gal of fuel @ 6 lb/gal is 270 LB
At the time of the accident, The weight of the aircraft was 2,582 LBS
368 LBS under Max Gross Weight

The total gallons on board is merely educated estimation from pilot. They reload each time to Full Fuel (57 gal) with a max of 25 gal of product about every 2-2.5 hrs

Thanks,
Cameron Hendrickson
