NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Departed KSDL around 0700 AZ for a local flight to KIWA for touch and go's. I have been trying to fly at least once every 30 days and I am currently working on my PIC cross country hours for my instrument rating. This flight was just to get time in for currency because I would not have time for a cross country for a few more days. I flew east of KFFZ to avoid Mesa's class D airspace and called Gateway for clearance to do touch and go's. They vectored me to avoid incoming commercial traffic, then cleared me for touch and go's on 12 C. I completed 4 touch and go's then returned to KSDL through KFFZ airspace. Once I was cleared for a frequency change, I listened to KSDL ATIS for weather then called the tower with a request to land. I was cleared for right traffic to runway 3 and flew the pattern. On final I set up for a crab and followed the glide slope to the runway. I landed just right of the center line and the plane started to drift more right. I started adding right rudder slowly at first and the plane continued to drift right. Then I added more right rudder when it didn't seem to correct. At some point in time I was over-corrected and over-corrected back. Which took me into the gravel on the right side of the runway. I rolled off the side of the runway just past B5 and clipped the 2000 foot sign. I continue to roll to B6 and crossed the runway and exited A6 as per instructed by the tower and waited for airport operations to escort me to parking.
