

RECORD OF MEMORANDUM

Eleazar Nepomuceno
Air Safety Investigator
General Aviation Accident Division

Date: 5/18/2019
Person Contacted: David Vanyo (pilot)
NTSB Accident Number: GAA19CA262

Narrative:

The following is a synopsis of the information provided by the pilot on this date:

The pilot reported that he was flying through canyons about 10-15 miles southwest of Grand Junction, CO when the left wing struck power lines. Subsequently, the airplane impacted terrain. He added that he did not see the power line.

The pilot reported that there were no preimpact mechanical failures or malfunctions that would have precluded normal operation.
