Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Aircraft completely destroyed by crash, consumed by fire.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

I was nearly empty on my 3rd load of the day, turning back to enter into the field. This end of the field had a set of H frame power lines which I had flown under many times before, and had flown underneath approximately 10 times during this load. I misjudged my height coming to the lines, and as a result struck the lower wire with my top wing. The plane impacted the ground and tumbled several times before coming to a stop, and I exited immediately. Shortly thereafter the plane's fuel ignited, which pretty well burnt up the plane.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

Fly over the wires, make trim passes on other side of wires once I was finished spraying the field.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No
