Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

The aircraft parts were spread across the field i was applying.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

I was 1.7 nm northwest of Pittsfield IL airport. I took off from the an adjacent field roughly 11:30am next to the field that i was about to preform aerial application on. I surveyed the field then started applying the field starting on the east side working my way west. I started on the south headed north then back south and on my 3rd pass going back to the north i enterd the field glanced at my lightbar to make sure i was on course, also relizeing i was higher above the surface then normal but i was continuing to the end of the field because i was almost done with the spray pass. Then next thing i relized the aircraft came into contact with the ground.

Location: It was a hilly terrained wheat field that i was spraying north of pittsfield IL
