Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Aircraft was destroyed. Minor damage to wheat and one tree.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

8th load of the day. Took off from Van Wert approximately 1830. I had about 5 gallons of chemical left in the hopper. I had been working the east end of a wheat field, next to a grove of trees and under the power lines. My last pass was from south to north. I went under the wires, pulled up and made a left hand 180 degree turn back to the south. I had intended to return to the west side of the wheat field and spray a clean up pass from north to south. I forgot that the wires were there and did not see them. Prior to entering the area to be sprayed I impacted the wires. They hit the canopy first and shattered it. My left wing tip then hit the second of three sets of wires. The aircraft yawed hard to the left and became uncontrollable. The aircraft continued in an uncontrolled, slowly rolling and inverted path to the point of impact. The aircraft eventually came to rest on its belly facing north. I removed my helmet, unbuckled my harness and exited the aircraft through the left door.
