Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Cross country from KFPR to KFFC. While at KFFC performing my flare to land but prior to the mains touching down, three deer ran across the runway from right to left and directly under the plane. I immediately and simultaneously added power and pulled up the nose to go around but was not able to completely clear the animals. I heard and felt a significant impact under the plane while initiating the go around. Immediately following the loud double impact, I instinctively looked at the mirror on my left engine and noticed the nose gear "dangling" back-and-forth freely. At that moment, I opted to abort the go around, I retarded the throttles to idle and landed roughly 1000 feet down the runway. As expected the nose gear completely collapsed. The airplane came to a complete stop. I unbuckled my seat belt and exited the aircraft as fast as possible.
