Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Regarding the balloon occurrence on June 5th 2019.

I was coming in for a landing after about a one hour flight, we were moving about 8 mph, as we touched down one of the crew persons jumped onto the basket to add his weight. As the balloon was coming to a stop it encountered some rough terrain that was hidden by tall grass, which caused the basket to bounce up, at which time the crew member was tossed up in the air over the basket to the front side of the basket. As he landed on the ground in front of the still moving basket, it came up off the ground again and over the crew member. The crew member sustained a broken leg as a result of occurrence. The crew member was air lifted to a hospital in flagstaff where he was treated for his injuries. None of the passengers were hurt, and the balloon was not damaged.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

Having the ability see the rocks hidden in the grass covered field.

ADDITIONAL INFORMATION (Please type or print in ink)

Use this space if additional space is needed for any answers.

Hot air balloon does not have engines. There were 3 burners (airborne heaters).

Balloon launch and landing operations are not at any airport locations - rather in remote forest locations near the Sedona AZ area.

Zero seats (standing only) 16 passengers.
