Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Left main gear and nose gear tires popped. Both props curled about 1" from tips. Crumpled skin on wings. Spars and main spar bent.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

After completing 6 practice approaches, we circled to land on Runway 8. The air conditioning wasn't working and it was very hot in the plane. The winds were gusty and there was some turbulence from ground heating/convection. I had full flaps in and the gear down. On short final, with the throttles at the bottom of the green arc, I was too high and too fast and worried that I would over-speed the gear and flaps. I pulled the throttles to idle and then got too slow. about a quarter mile from the runway, I reduced the flaps from 3 notches (full) to 2, in order to speed up. Just above the runway, the stall warning horn sounded and at about 8 feet above the runway I flared and the aircraft sank quickly onto the runway. The left main tire and the nose tire popped. Neither I nor my safety pilot suffered any injuries or even any discomfort. I was able to taxi back to the hangar. I noticed both props bent but didn't notice any damage to the wings. A few days later, my mechanic and the insurance adjuster confirmed the spars were bent and the aircraft was damaged beyond repair.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

With the gusty conditions, I should've carried more speed on final, and I should've immediately increased power as soon as I noticed the speed decreasing. I should not have reduced the throttles to idle until I was over the threshold.
