NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Seldovia, AK (PASO) -July 6, 2019, N3556W (1966 Piper PA32-260 Cherokee Six).

I have been successfully flying in and out of Seldovia Airport for the past 16 years in this aircraft. On this date, I was mentally alert and under no time pressures. I am not presently aware of any irregularities with the conditions of the runway or my aircraft. All flights prior to this flight were uneventful.

Aircraft was loaded with 5 passengers and luggage, survival gear and 2 medium dogs. Fuel on board was calculated at 45 gallons based on flight burn and pre-flight check. Preflight procedures (including sumping) were performed for intended flight to Wasilla, AK (PAWS) with weight and balance assessment which determined aircraft to be within tolerances and 300# under gross weight. Preflight, starting, run up, and before take-off checklists were followed, and no discrepancies were discovered. At 7pm local time Seldovia ATIS was checked prior to engine run up on cement pad at south end of parking and wind sock confirmed runway 34 as favorable departure runway.

Take off initiated following short field protocol, including adding 2 notches of flaps. Rotation and initial climb out continued as expected. Climb performance degraded and became insufficient to clear trees. Air speed was maintained before and after aircraft impacted upper branches of the lowest trees. Immediate descent occurred with the aircraft impacting the lake below. Aircraft remained upright as all occupants quickly and orderly exited the aircraft from the front passenger side door over the right wing. All 5 passengers and 2 dogs were able to swim to shore. The aircraft quickly became submerged with the nose resting on the lake bottom and tail remaining above water. No injuries occurred.
