Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

DAMAGED THE HORIZONTAL STABILIZER, R/H ELEVATOR, THE AFT BULKHEAD ON THE EMPANNAGE. DAMAGED THE AFT TOP AND BOTTOM SKINS ON THE EMPANNAGE.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Narrative per pilot Rixuan Wang:

I was trying to practice soft field takeoff after several normal takeoffs and landing during my last cross country flight to PRX airport around 0930 Central local time on 07/06/2019.

On runway 17, I applied full power and pitched nose up above the horizon, the aircraft got airborne in ground effect, and the winds coming from SW drifted me the the east side of runway.

There were many hay bales east and west of the runway. I'm not sure about having a tail strike of the runway, but I'm sure the tail hit one hay bale.

After that happened, I immediately turned towards the runway and landed on the remaining runway approximately mid-field.

The intended destination was GYI.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

This accident could have been prevented if the student (Rixuan Wang) would have followed his instructor's instructions about not performing soft field takeoffs. According to his instructor, Rixuan Wang needed more practice on soft field takeoffs and he was briefed not to do those during his solo.

As an operator, we continue to promote aviation safety by having weekly classes about safety and other procedures. Every month, our SMS manager sends out Safety Briefings to all staff members and student population.

As a goal for the near future and daily operations, US Aviation has and continues to work on improving ADM to its pilots by educating and training their instructors and student staff. US Aviation is aware no aviation company is accident/incident free, however we continue to work along with our team to mitigate risks regarding safety.
