Aircraft was purchased in Arkansas in December, 2018. It was transported disassembled to Washington state in a Penske van in January, 2019. Upon completion of assembly and inspection, it was reweighed and ready for test flight.

Log Entry, 7/2/2019

On 7/6/2019, at 16:00, I made 2 runs down the runway and all went smoothly. I departed from runway 18 and circled the airport for about 30 minutes. I decided to land at that point. Touch down was normal. While rolling out, the left front landing gear attach lugs broke off the mount fitting. At that point, I lost directional control. The airplane ground looped to the right into a ditch and nosed over.
