Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

aircraft destroyed, propeller, engine and forward airframe destroyed

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

knew I was heavy, so I taxied for takeoff, went to east end of runway which has trees and departed west bound since that end had more open space. it was hot, I was near gross weight and after liftoff decided that I needed to veer over field to allow myself more room to climb, but as I turned more to the north, i believe i encountered a quartering tailwind which further reduced my lift and resulted in a stall from approx 30 feet of height. Aircraft impacted the ground in a family members yard, no one on the ground was injured. entire front section of aircraft was destroyed.

RECOMMENDATION (How could this accident/incident have been prevented?)
