NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

31 July 19

Aircraft: Robinson R-44: 3066T

Pilot: Michael Hamouz

Time: 0830

Location: 4.5 miles south of Fessenden, ND along highway 52 east side.

Conditions: Sunny, SE wind at 6-8 miles per hour.

I was working out of Fessenden airport for Wells County Water Board spraying cattails in drainage ditches.

I was cleaning up the southeast end of the drains that crossed highway 52 south of Fessenden ND.

I was on my 3rd load of 40 gallons per load.

I was flying at a height of 10-15 feet heading East. The sun at this time was a factor.

As I approach the highway the terrain went up slightly and I then saw the wires at around 40 knots.

I lowered collective and slightly nose down with the cyclic to try and go under the wire.

I felt the wire hit and the aircraft shock and rolled slightly right and descended. I tried to flare and pull collective.

The aircraft hit the ground and bounced back up into the air.

Then aircraft spun around a least one rotation and hit on the right side and rolled onto the left side.

After the aircraft came to a stop, the engine was still running.

So, I turned off the fuel and pull the mixture to stop the engine and fuel flow. I turned off the master switch as I was exiting the aircraft.

There was fuel leaking so I moved away from the helicopter and that is when a truck driver stopped and called 911.

I only had minor injuries with a sore back and left side lower rib. I was taken to Harvey Hospital evaluated and released at 1130.

Mike Hamouz

RECOMMENDATION (How could this accident/incident have been prevented?)
