Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

I believed the right yaw to be LTE and lowered the collective immediately in accordance with my training. I could have better managed the descent speed, to lower the vertical descent rate. I could have avoided an approach angle that limited the option to use forward speed to exit LTE.
