Flight statement information.

On August 4th 2019 at approximately 11:30 a.m. I launched the ASW 24 glider from AC Goodwin Memorial Field (Az 86). The glider was new to me and this was my fifth flight. It was VMC conditions. After initially scratching to obtain altitude I found a thermal that took me to about 10,000 feet MSL. I then continued the flight southwesterly over Prescott and Granite Mountain. I then proceeded Northwest towards Seligman. My maximum altitude was about 13,500 feet MSL. En route at about Paulden I failed to find the lift. I did search for more lift and after losing 6000 feet I began to consider landing away from the home field. There are several dirt airstrips in the area. I had landed at "Pilots Rest" (AZ 57) in the past. I did call for advice to identify the airport.

I thought I had identified the airport and began an entry into a left-hand pattern. I was not sure this was the airport or a dirt road. The characteristics of the area seem to match Pilot's Rest. Using dive brakes I lined up on the centerline. I was so concerned to identify the airport I did not go through my landing check list. On short final I noticed I had failed to lower the landing gear.

Flying with my right hand on the stick and left-hand on the dive brakes I had to change hands in order to lower the landing gear with my right hand. In so doing I veered to the right off the road. On short final I touched down briefly but was no longer on the road. The glider struck a utility box on the left portion of the cockpit. My left foot impacted the utility box in the cockpit in canopy disintegrated around me. After a ground loop the aircraft came to a stop. Assessing the situation I found my left leg was severely fractured in bleeding some. Fortunately a bystander witnessed the crash. She asked if I was all right and then called 911. Another bystander assisted by applying a tourniquet to my leg.

Paramedics in the Sheriff's Department assisted in extrication from the aircraft. I was transported Yavapai regional medical Center and from there flown to Honor Health Scottsdale Trauma Center.

I was hospitalized for two weeks and have undergone five surgeries and blood transfusions. Orthopedic trauma reconstruction continues in an attempt to salvage my foot and leg.

Although it was a good day for flight my mistakes were failing to identify the landing strip (AZ 57) Pilots Rest. The pressure to identify the airport distracted me from enacting my landing checklist which then led to a hurried lowering of the landing gear. I did not maintain lateral control of the aircraft and struck an object off of the road.

This report comes longer than 10 days since I have been in the hospital undergoing surgeries and did not have access to log books or aircraft information.
