NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

- I took off runway 28L at KHOW without tower clearance unknowingly at about 09:30am
- o It was my first solo and I was very intense, confuse and nervous.
- o It was only one controller at the time in the tower and ground, the traffic was really busy and intense.
- o After run up and pre-take off checklist, I misheard the tower radio call and took off without tower clearance by mistake.
- Went of the runway 28L on the left side after touch down.
- o After I landed safely, I pull out the yoke and started to break the plane.
- o With my CFI, we always to taxi out at D intersection, but I was too fast and missed it. that's why I got confused when I needed to taxi out by myself.
- o I did not fully slowdown airspeed when I turn to the left towards taxiway L1, after I turned fast, aircraft went off the taxiway into the grass and hit on the taxiway L1 sign, finally the plane stopped.
- o After the plane stopped, I immediately shut down the engine and secure the airplane.
- o After secured the aircraft, I called my CFI and stand by for rescuer beside airplane then FAA and police coming right after I walked out the airplane.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

Student approached fast and landed long. Student tried to exit at normal intersection but was too fast floating in ground effect and the P-factor pull aircraft to the left of the runway.

Recommendation: Pilot should have initiated a go - around because the approach was not stabilized.
