

NTSB RECORD OF CONVERSATION

Kate Benhoff
Air Safety Investigator
General Aviation Accident Investigation Division, AS-20

Date: September 17, 2019
Person Contacted: Raj Horan (Pilot)
NTSB Accident Number: GAA19CA535

The following is a summary of a telephone conversation with the above mentioned:

The pilot reported that he dumped about 350 gallons of water out of 625 gallons in the hopper. The airplane "got too slow," aerodynamically stalled, and he could not get it back.

He added that there were 2 people on board with minor injuries.

The pilot reported that there were no preimpact mechanical failures or malfunctions with the airplane that would have precluded normal operation.
