Total time of flight less 90 days: 35.5 hours (01/AUG/2019 ~ 11/SEP/2019)

Approximate time of solo flight started: 12/SEP/2019, 06:20am

The duration of solo flight: 10minuates

Tale Number: C172S, 796WW

Situation:

I checked myself before coming to school and there was not a single problem with myself. I started my first solo flight on 12/SEP/2019 and approximate time is 6:20am. I contacted ground, request one full stop and the ground gave me an instruction of taxi to Runway 7R, C2, taxi via C. After taxi to Runway 7R, C2, I was holding short and contacted to tower. The tower gave me an instruction Stand by first. Then the tower gave me a clearance to take-off at Runway 7R, C2 with make right traffic.

After I got the clearance from the tower, I lined up center line on Runway 7R and add full power. I put right rudder slightly to maintain the plane in center line. After the plane got enough air speed which is 55knot I pull the yoke back slowly to rotate. Right after the rotation, above 2feet or 3feet from the Runway 7R, the plane started to bank to right and yawing to left. I put right rudder and turn the yoke to the left softly to make the plane level but the plane kept heading to the left and banked to the right. I felt unsafe to take-off so I instantly reduce the power to idle. Once the plane touched a gravelly field, I applied the brake softly to reduce the air speed and put the right rudder to be back on the Runway 7R. While the plane was getting back to Runway 7R, right gear hit a signage and jumped on Runway 7R. Once the plane was on Runway 7R, I put left rudder to maintain the plane in center line and applied more break to stop but after the right gear hit the signage it does not work and skid to right gravelly field. The plane hit a signage of C7 with the nose and turned 180 degree to right and stopped. After the plane stopped, I was listening the tower and waiting for the instruction. The tower called me after changing Runway for other planes.

Tower: Cessna 796WW, Deer Valley Tower.

Pilot: 796WW

Tower: Please tell me how many people on board.

Pilot: Just myself, 796WW

Tower: 796WW, Roger, can you tell me how much fuel remaining?

Pilot: About 46 gallons, 796WW

Tower: 796WW, Roger, stay in your aircraft and turn off your aircraft. Emergency vehicle will come.

Pilot: Roger, 796WW

After I got the instruction from the tower, I turn off properly and kept listening on tower. Emergency vehicle came, I explained what happened and signed on paper.
