NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

DEPARTURE TIME - 0930 local time (EST)

LOCATION - ~~1st~~ KUNC to KAPF

While landing in Naples my approach for landing was fine however, when I was over the runway environment I felt my aircraft suddenly sink, which was not appropriate to me so I added some power in order to level the aircraft and land further down the runway. But before that I encountered the first bounce and as I added power it bounced again, and it abruptly landed on the nose wheel.

The services obtained were flight following,
And activation of flight plan with FSS.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

I would recommend that instructors stress the importance of going around when the approach is unstable, or any undesired and unexpected situation occurs during any phase of a landing.
