Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Substantial damage to RH lower wing and MLG. Damage to LH lower wing tip, both upper wing tips, and lower engine cowling. Propeller

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

On the morning of September 23, 2019, I checked the local weather using various web sites. Fair weather with good visibility and low winds were forecast for the morning. I proceeded to Cook Field, where my airplane, a Graham Lee 7/8 scale replica N1398 is hangared.

I conducted a normal pre-flight. Fluids were normal, 5 psi added to each tire to reach specified 40 psi. The fuel tank measured 6 gallons 100LL. I planned to make a local flight of approximately one hour. The engine started easily, and I proceeded to the North end of runway 17-35, as the winds were very light SE/E.

After warm up/ mag check/ traffic search, I declared takeoff to the South on runway 17/35.

As the airplane aligned to runway heading, I added power to accelerate and raise the tail to improve takeoff visibility. The airplane made an excursion to the left (east), which I was unable to check.. The excursion continued and impacted the precision approach light fixtures on the East side of the runway. Both lower wings, the upper wing tips, the propeller, and the right landing gear were damaged by contact with the PAPI light system before the airplane came to rest pointed North, or 180 deg from the desired path.

I shut off the fuel, quickly exited the airplane and removed the batteries to inactivate the electrical system. The airport owners and one of the nearest hangar / home owners arrived and assisted in securing the site and notifying authorities.
