Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

Damage to the floats and attaching points where they attach to the aircraft.

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Departing on floats from Issac Lake at the Kotzebue Airport in Kotzebue Alaska which parallels runway 18/36 on the west side. Wind was minimal out of the NW and departed to the north. Aircraft came up on step as normal. Left float starting to get light and ready to come out of the water when the right float dragged the acceleration of the aircraft down after hitting a submerged bog (floating submerged tundra) after a brief deceleration the aircraft accelerated again. The aircraft did not gain sufficient speed to lift off and the takeoff was aborted at the north end of the lake where and when the float contacted the mud. The aircraft slid along "F" taxiway and stopped up right on the east side of "F" taxiway on the airport.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

Not contacting a submerged bog in the water. Better airport maintenance and care of the float pond. Extend the length of the float pond to be able to accelerate to lift off speed and have sufficient length left to abort a takeoff.

MECHANICAL MALFUNCTION/FAILURE (If more space is needed, continue on separate sheet)Was there Mechanical Malfunction/Failure? ☐ Yes ☒ No

ADDITIONAL INFORMATION (Please type or print in ink)

Use this space if additional space is needed for any answers.

Flight was departing empty from Kotzebue and heading out to a lake approximately 100 miles NE of PAOT to pick up company camp gear and equipment. No passengers on board and no revenue cargo or passengers were on board. Flight was operated under FAR Part 91.
