Description of Damage to Aircraft and Other Property *(Use additional sheet if necessary)*

NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

Departed KDWH at approximately 5:50 PM on 10/4/19 with flight following. The weather was clear with scattered thunderstorms along the route and clear weather at destination, KARA. Flew easterly at 5,500ft until reaching Lake Charles then south easterly to maintain distance from lightning ahead. Other traffic reported clouds at 6,500 ft. After nightfall descended to 3,500ft for potential clouds. Then turned east, northeast direct for KARA. After about 20 min at 3,500 ft, I lost engine power. Reported power loss to ATC. Tried restarting the engine by adjusting mixture and throttle. Looked for street lights to land on a street. Little to no lights visible. Found an open field and then picked up a tree line ahead with the landing lights. Cleared the tree line, but I'm told there was a telephone pole just on the other side of the tree line. Left wing hit pole and the plane rotated counter clockwise. The plane impacted the ground on the tricycle landing gear and the nose gear broke off.
