The fence was tore down.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

RECOMMENDATION (How could this accident/incident have been prevented?)

Operator/Owner Safety Recommendation

I believe having one notch of Flaps 21° with a crosswind was what caused the plane to do what it did. I believe I could have avoided this by waiting for the winds to be more down or no crosswinds.

Statement of crash of PA-38 at KFLY on October 15, 1019.

I had just put 16 gal of fuel on at the self serve fuel, 9 gal on the passenger wing and 7 gal on the pilot wing which gave me an overall 21 gal of fuel. As I listened to the AWOS winds were 11 Knots from 33. Of which is often the case from many other airports I have taken off from. The only runway that was open for take off was 08 as the preferred runway would have been 33 was closed for an overlay.

I taxied to 08 and I did my run up. All mags and everything was working normally. Ready for takeoff I made a call that 9708T was departing 08. I knew the runway was 2074 ft and had set up for a short field takeoff by pulling the first notch of flaps 21 degrees according to the pilot hand book it gives me the best angle of clime in the Tomahawk.

I held the brakes and brought the plane to full power then released the brakes and began down the runway then pulled the yoke around 55 knots and the nose wheel came off and shortly the rear wheels came off and immediately the plane was pulled to the left and the plane was not down the runway but off to the side. I was tying to bring the plane back over the runway and gently climb but would not.

We was about 4 feet off the ground and hit a still fence and inside the fence were horses. And suddenly we came to a stop and left the aircraft right away. My wife and I were not injured. I called 911 and within minutes the emergency crew were on the scene.

This statement is to the best I remember.

Sincerely,

Arlen Hughes
