INCIDENT STATEMENT N80931

I, Cleo Preston Tutt, Jr., was involved in an incident while Pilot-In-Command of Cessna 172 N80931 where the airplane impacted the fence and my recollection of events are as follows.

After announcing my intentions, I re checked and the plane was configured for take-off; full rich, carb heat in, zero flaps and trimmed for take-off. I entered Runway 23 and centered the plane and applied full power. At 55kts I rotated and the plane lifted off of the runway. Approximately five feet off of the runway the plane came back down to the runway and veered to the right at which time I applied left rudder which had no effect on the planes direction of travel. Having my left hand on the yoke and my right on the throttle I pulled the throttle to idle and at this point I am leaving the runway when the plane felt as though the left wing was lifting up and I placed the right aileron down and the left aileron up and the wings leveled at this point I am off of the runway into the grass and I have the brakes locked and impact the fence.

I announced on the radio that I had hit the fence but was not injured and waited for help.
