NARRATIVE HISTORY OF FLIGHT *(Please type or print in ink)*

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

As I was turning from base to final on Rwy 26 in Lamar, I heard a loud bang and a rushing noise and felt a strong wind in the cockpit. I was scared. The canopy was open 3 to 4 inches. The wind was so strong that the papers in the back and the papers on the passenger seat were blowing around the cockpit in a circular motion. It was like a tornado in the plane. The papers were blowing in front of my face. I considered it an emergency. I tried to solve the paper problem by trying to make the gap in the canopy smaller. I was pressing on the window sill of the canopy. While I was doing this the aircraft suddenly stopped. I was shocked. I was so scared and distracted by the papers flying around in front of my face because of the open canopy that I flew my beautiful new airplane into the ground.
