

RECORD OF CONVERSATION

Date: December 31, 2013

Time: 1015 - 1025

Person Contacted: Gus Funnel (VAN'S Aircraft representative)

Subject: WPR12FA432 N432RA, VAN'S RV 7A, Laramie, WY 09.21.12

I conducted a personal telephone conversation with Mr. Funnel on the date and time as indicated above, relative to the accident airplane in question.

Mr. Funnel provided me with some basic information about the accident airplane type, an RV 7A. He confirmed that the airplane was a tri-cycle gear airplane, and that it should have had a fuel capacity of 42 US gallons – two 21-gallon tanks, one in each wing. He also said that all of the fuel was useable, i.e., there wasn't any unusable fuel.
