Western Pacific Region

Date: January 5, 2015
Person Contacted: Mr. Also Distabile (pilot)
NTSB Accident Number: WPR15CA078

Narrative:

The following is a synopsis of the information provided by Mr. Distabile in a telephone conversation on this date:

- The event occurred about 1030 PST on January 4, 2015
- The airplane was piper PA28R-200, registration number n3811M
- The pilot reported that upon landing, he pushed on the brakes but experienced a loss of directional control, and veered off the runway. He said he thinks the left wheel went over a patch of ice at the same time he was applying breaks.
- The pilot stated he does not think there was an issue with brakes or the aircraft.
