We take off an Everything is good

I am taking videos an pictures. We are happy. Its a pretty day.

Dennis tell me. This is not looking good
What happen I say. Dennis tell me. We losing power. He is trying to do his best to resolve the problem.

Li was thinking everything was good again Because Dennis looks very calm.

I was very calm too. Then I ask. good? Then he tell me. "It's not looking good".

I put my left arm around his shoulder and say. We can do this baby.
And then I was quiet again.

Dennis knows where we can landing. We are near but it's a lot of people there.
Dennis say "it's to much people. We not landing there".

I think they are cables too.

I sew Mountains and mountains. I prying

I say no body there. Dennis was looking and say. Yes no body.
Then he landing.

I feel like a tune and we on a second was on the freeway. No body there.
I pray on my mind. Very quiet. I felt totally relax.

Then unexpectedly one black car go out to the emergency line

and we come near..... And near.... And nothing to do.... Dennis stop and stop but We crash on it.
I felt my belly and chest going up. And my life stop. Totally silence.... Then I get a small air go

People come immediately. One guy it's on my right taking a video. People talk about dangerous
situation because gasoline was pouring out the plane. I can believe the people still there. Helping
us.

Dennis is in shock. I saw blood. God protect my husband. We will change. You will be proud of
us. We will go to church. We will talk about this miracle. But save my husband.
He doesn't talk yet. Finally Dennis move.... Thank you lord.

I can't move much.... I hear something broken on my neck...

they bring tools to open the door. Yes... They open the door.

They take out Dennis. He move a few. No talk yet.

I guy it's talking to me by the door. He is a truck driver. He want me to move to the Pilot chair
because he can't reach me. I can't move. I can't.

He tell me again. "Can you move to this chair? I can't reach you. You have to move. It's a lot of
gasoline here. It's very dangerous."

When I hear gasoline. I know... God save us already I will have to move or probably the plane
