It was common for Mac McClure to fly multiple missions on the same day. I have color banded missions on the same day. He didn't return to KFFZ between each mission. For example, for the missions on 6/29 UBS would have delivered two boxes of platelets to him at FFZ. He would then fly to Show Low, drop off one box of platelets and then fly to Flagstaff and drop the second box of platelets. He may or may not return to KFFZ at that time. If he did not return, he would then either wait in Flagstaff or fly to Springerville and wait there until the UBS mobile draw unit brought the estimated 8 boxes to the airport. He would load those boxes in his airplane and fly to Flagstaff to pick up the estimated 9 boxes from the Flagstaff blood draw team. He would then return to KFFZ. UBS would send a van to KFFZ to pick up the 17 boxes he brought back from the two mobile draw units.

All flights originated from FFZ

Strikethrough indicates a canceled mission.

Legend

Type:

- s This is a scheduled draw mission. These missions vary month-to-month based on the UBS Mobile Draw Team schedules.
- pl This is a scheduled platelet mission. In general we have a platelet mission every morning to KFLG, KSOW, and KNYL.

us This is an unscheduled mission. When UBS has a need for a delivery of blood that is not planned on the schedule a text message is sent to all participating pilots.
First pilot to call and accept the mission will fly the mission.

Status:

f This is a mission that was flown.
ubs This is a mission canceled by UBS
wx This is a mission canceled because of weather. Mac has no weather cancelations in the last 60 days.
