Subject: RE: N7133G Owner questions (WPR16LA093)

Mike,

Paul Butler is the Co-Owner that sold his share to Frank Dean, the pilot on the day of the accident.

I received a call from the Air Force Rescue Coordination Center in Florida ([REDACTED]) at 1647 local time, but I was not able to take the call, because I was with a customer at the time, setting up some stuff at a trade show. I subsequently received a call from the Coast Guard rescue Coordination Center in Oakland, CA ([REDACTED]) at 4:58 PM and the notified me of the ELT going off.

The phone number that is listed for Don Jennings, who is a current co-owner is wrong. It should be [REDACTED]

I placed calls to all 4 other co-owners immediately after hanging up from the first call with the Coast Guard. I also contacted another pilot from the line at KLGB to ask him to go out and verify that the aircraft was there. When he got to the airport, he called me back to tell me the airplane was gone, and Don Jennings just happened to be at the airport and he verified that Frank Dean had taken the plane and left for Catalina with Susan for a quick flight.

I hope this helps.

Frank Q.

Hi Frank

Ive been working on the ELT notification/position info re this accident.

I recall that you said there were 5 owners, and that Frank Dean recently 'replaced' a previous owner

The first ELT notification (at 1629) wasn't sufficient to enable a position calculation, but the USAF reportedly telephoned the three #s below; without 'success' (either they didn't talk live to anyone, or they didn't get any info re the plane- im not certain

Here's the ELT registration/contact info that was associated with the unit

***** BEACON REGISTRATION DATABASE INFORMATION *****

LEASTING AGENT:

Can you please tell me:

- a) If the other two persons listed beside you are current owners, and
- b) If so, whether their phone #s are valid (i checked yours)

Thanks!
