Description of Damage to Aircraft and Other Property (Use additional sheet if necessary)

Aircraft sunk into Pacific ocean.

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and location, services obtained, and intended destination. Provide as much detail as possible.

At 1345 HST, David and I departed JRF on 4C at C. We departed to the north and asked HCF approach for East bound transition over the freeway 3,500 at the H1/H2 interchange. We had our own navigation around Diamond Head. We climbed to 9,500 to maintain VFR. At 5,500 engines started to run rough so we decided to descend to 3,500. David was PF. At 3,500, passed Kaho'olawe, our right engine quit. David shoved everything forward and I brought out the emergency checklist. The right engine surged power before completely dying. Sydney was sitting left seat and turned on fuel pumps. Shortly after the left engine quit. Just like the right it surged power before completely dying. We checked gauges and fuel tanks were indicating 1/2 full, everything in the green. After Sydney told HCF we were going down, David handed controls to Sydney to land and opened the door. We ditched and evacuated aircraft.
