

RECORD OF CONVERSATION

Date: December 8, 2016

Time: 0900 - 0915

Person Contacted: Les Proctor, Half Moon Bay Airport Operations (HAF)

Subject: WPR17FA023 Cessna 172N accident, November 18, 2016 at HAF

Mr. Proctor, an airport operations staff member at the Half Moon Bay Airport (HAF), Half Moon Bay, California, was one of the first responders to the accident site during the morning of the accident. Mr. Proctor said that from about 10 minutes to 45 minutes after the time of the accident, and while he was present at the accident site, he observed 3 airplanes on final approach to runway 12 at HAF, and each of them was experiencing turbulent conditions while on final approach, and within the area where the pilot most likely experienced the inflight upset.

Subsequent attempts by Mr. Proctor to reach the pilots of the three airplanes previously referred to for statements were unsuccessful.
