

AMERICAN AVIATION

February 26, 2017

On the night of 2-25-17 (Saturday) Mr. Randy Wells called American Aviation at Page Airport 6:50 pm for after hours fuel.

I came in at 7:00 pm topped off both tanks (18.3 gallons). When I came back in from fueling the plane Mr. Wells was looking very tired. He asked the two children if they want to lay down for a little while. They said no, they want to get home. So Mr. Wells loaded the plane and they left at 7:18 pm.

I told Mr. Wells there was a place they could lay down, but he said "No" and left.
