

RECORD OF CONVERSATION

Michael Huhn
Air Safety Investigator
Western Pacific Region

Date: October 5, 2017 (rev A)
Person Contacted: Mr. Brent Wood (Student pilot)
NTSB Accident Number: WPR17FA215

Narrative:

The following is a synopsis of the information provided by Mr. Wood in a telephone conversation on this date:

- Mr. Wood was at his home; he had been released from the hospital
- He is due back for an exam on Oct 10, but is expected to make a full recovery
- His injuries included
 - Fractured left ankle
 - Fractured right arm
 - Fractured nose & eye sockets
 - Lung hematoma but no fractured ribs
- When asked, he stated that the airplane was not equipped with shoulder harnesses, only lap belts
- When asked about the accident flight, Mr. Wood stated that he has no recollection of the flight, or the two preceding days
 - He specifically stated that he did not even recall meeting the CFI at the airport to start the flight
- His first memory of the event is when a SAR person handed him a bottle of water
- He was advised that he would receive an email with an NTSB accident reporting form, and the IIC's contact info
 - He was requested to complete the form, and also provide flight-related info if and when he ever recalled anything
