

The El Monte (EMT) local control (Tower/CTAF) recording is 02:59:49 (two hours 59 minutes 49 seconds) long. The Tower announced closing 01:44:58 into the recording. As the El Monte Tower is operational from 0800 to 2000 (8:00 AM to 8:00 PM) local time we use the official tower closing time to establish approximate local times from the beginning of the recording to the end. Otherwise, while this review notes the events covered in the recording it is not a transcription of the recording. Quote marks are used where the text is directly from the recording.
