

# APPENDIX A

Tabular data recovered from the JPI and used in this report are provided in electronic (\*.csv<sup>1</sup>) format as Attachment 1 to this report. Table A-1 lists the parameters plotted and table A-2 describes the unit abbreviations.

**Table A-1. Recovered parameters.**

| Parameter Name            | Parameter Description                           |
|---------------------------|-------------------------------------------------|
| Time                      | Pacific Daylight Time (PDT)                     |
| EGT-# <sup>a</sup> (degF) | Engine Exhaust Gas Temperature for Cylinder #   |
| CHT-# <sup>a</sup> (degF) | Engine Cylinder Head Temperature for Cylinder # |
| OAT (degF)                | Outside Air Temperature                         |
| BAT (V)                   | Battery Voltage                                 |
| Oil_T (degF)              | Oil Temperature                                 |

<sup>a</sup> number of cylinders from 1 to 6

**Table A-2. Unit abbreviations.**

| Units Abbreviation | Description        |
|--------------------|--------------------|
| degF               | Degrees Fahrenheit |
| V                  | Volts              |

---
