Helicopter bent up skids brake engine main transmission all good

NARRATIVE HISTORY OF FLIGHT (Please type or print in ink)

Describe what occurred in chronological order, including circumstances leading to and nature of accident/incident. Describe terrain and include wreckage distribution sketch if pertinent. Attach extra sheets if needed. State departure time and and location, services obtained, and intended destination. Provide as much detail as possible.

The company received work from a farmer before rain storm. Kenny would not be able to get the trees protected. So I pulled N7800S to the field and flew the helicopter so the trees would be protected. I sprayed a couple of the Almond fields. I was working on the field I went down in. I was low on fuel I landed on truck went down talked to get on ground, finished went back to helicopter saw loaded helicopter I got in did the scan and went to spray was sprayed out coming back to truck the engine went quiet I flared and slowed down and put helicopter down between the rows, unbuckled got out and waited for help. They came - took me to hospital. The helicopter was out of Gas
